We invite your company to become a proud **SPONSOR** of our

6th Annual "Bag Ladies Benefit"

Thursday, May 5, 2011, 6-10PM

The Hamlet Golf & Country Club, Commack, New York

HONORING RECOGNIZED LEADERS:

Stephen Holbreich, Attorney, Arkwin Industries, Inc.

Liz Holbreich, HBCAC Volunteer, Educator

For twenty years our organization has provided help and hope for women and their families coping with a diagnosis of breast cancer. Our **Lend A Helping Hand Program** has helped reduce the stress of those facing diagnosis by providing financial assistance, professional support services and care. We are proud of the investment we have made promoting family health through our many educational programs with focus on reducing risk of disease through our **Prevention Is the Cure (PITC)** Campaign. There is mounting scientific evidence suggesting that disease is not caused by genes alone, but by personal behavior and the interaction of environmental triggers. The scope of those we serve and the programs we've initiated have grown over twenty years, but our mission remains - providing help and hope for individuals, supporting their loved ones, and focusing on prevention methods, as we actively help those faced with breast cancer.

Become a **Sponsor** of this exciting and unique event where new and pre-loved designer handbags and fashion accessories are auctioned off to the highest bidder!!!!

As a Sponsor of **The Bag Ladies Benefit** - "*enhance your corporate image*" and give a positive community profile to your company. The **Bag Ladies Benefit Sponsorship** options are priced to encourage participation by businesses of all sizes. Your benefits guarantee visibility to the New York community.

This event attracts hundreds of professional business women and men from the New York Metro area, who want to enjoy a "fun" high energy evening while helping to raise the necessary funds to support the extraordinary **Students and Scientists Environmental Research Scholarship Program**.

"A one of a kind hands-on program, designed to encourage the interests of young men and women in environmental science and public health, giving students the opportunity to work beside world renowned researchers while participating in sophisticated laboratory procedures at a national state of the art facility." For more information please check out our website – www.preventionisthecure.org

With your support, we will be able to continue providing care through our survivor support services, educational outreaches, Prevention Is The Cure campaign and student's comprehensive research internship program.

We look forward to hearing from you so that we can provide an opportunity for your company to receive visibility across the New York Metro area as a Sponsor of this year's **Bag Ladies Benefit**.

Thank you,

Lisa Kratter, Event Chair
