

UNDERSTANDING & USING THE HEALING POWER OF NATURAL FOODS

**THURSDAY, MAY 10<sup>TH</sup>**  
**7:00 – 9:00PM**  
**FREE OF CHARGE**

MELVILLE BRANCH OF THE HALF HALLOW HILLS LIBRARY  
510 SWEET HOLLOW ROAD, MELVILLE

Presented by STARFLOWER EXPERIENCES, GREEN LIVING SEMINARS with LeeAnn L. Seelye, Certified natural health professional and herbalist.

What we put in our mouth has a profound effect on our health and well being. Many of today's diseases are caused just as much by an excess of anti-nutrients, as by a deficiency of nutrients. As simple as reading a label and knowing what you're ingesting, can have a great impact on you and your family.

# PREVENTION IS THE CURE

A COLLABORATIVE EDUCATIONAL CAMPAIGN

IN PARTNERSHIP WITH OTHER ENVIRONMENTAL AND CANCER ORGANIZATIONS, HBCAC IS BRINGING FRESH FOCUS ON THE CAUSES OF DISEASE RATHER THAN WAYS OF COPING WITH IT ONCE DIAGNOSED.

We seek to: **INCREASE** public awareness of environmental links to disease, **GAIN** support for the **PRECAUTIONARY PRINCIPLE\*** as it applies to public policy, **URGE** the public to demand more funding for environmental health research, and **ENCOURAGE** a “better safe than sorry” attitude toward personal lifestyle.

## PREVENTION IS THE CURE

suggests eight steps which every person can take to reduce the risk of disease:

- Support research into the environmental causes of cancer
- Choose organics over pesticides and opt for non-toxic cleaners
- Avoid plastics
- Avoid non-essential medical and dental x-rays
- Avoid synthetic hormones in dairy and meat
- Learn safer alternative products and practices.
- Choose ways to reduce stress through physical & therapeutic alternatives.
- **SUPPORT THE PRECAUTIONARY PRINCIPLE\*!** which states: when an activity raises threats of harm to humans or the environment, precautionary measures should be taken even if some cause and effect relationships are not fully established scientifically.

## COME CELEBRATE OUR HEALTHY PHILOSOPHY... PREVENTION IS THE CURE!

Choose an educational program in an area near you. Bring your friends and neighbors. Unite for a pro-active stand to help eradicate disease.

Breast and other cancers, asthma and childhood leukemia are among the life-threatening diseases that still plague all segments of our society. The search for cures should be going full-speed ahead. As an informed public, we need to take a stand for change. Preventing the start of a debilitating illness can, in fact, be its ultimate cure. Early detection is no longer the only acceptable alternative. **PREVENTION IS THE CURE** provides science-based information to local citizens so they can help prevent new cancers.

**“DISEASE PREVENTION MUST BE THE CORNERSTONE OF PUBLIC POLICY. THE CHALLENGE BEFORE US IS TO CHANGE EXISTING POLITICAL MYOPIA THAT ASSOCIATES THE PREVENTION OF DISEASE WITH A NEED FOR MORE DRUGS.”**

Karen Joy Miller, President, Prevention Is The Cure

**“TODAY, SCIENTIFIC UNCERTAINTY IS USED TO POSTPONE TAKING ACTIONS TO PROTECT PUBLIC HEALTH AND ENVIRONMENTAL QUALITY. THE PRECAUTIONARY PRINCIPLE IS A NEW POLICY TOOL FOR COMBATING POLICY INACTION CREATED BY RISK ANALYSIS.”**

SCOTT CARLIN, PH.D

ACROSS NEW YORK STATE, THE COUNTIES OF SUFFOLK AND NASSAU, AND THE TOWN OF HUNTINGTON, MAY 10-20, 2007 HAS BEEN PROCLAIMED “PREVENTION IS THE CURE” WEEK

We applaud your commitment to educating Long Island residents about healthier lifestyles and ensuring that a clean environment is the cornerstone of your public policy. Thank you: U.S. SENATOR CHARLES SCHUMER; U.S. CONGRESSMAN GARY ACKERMAN; U.S. CONGRESSMAN STEVE ISRAEL; N.Y.S. SENATOR JOHN FLANAGAN; N.Y.S. SENATOR CARL MARCELLINO; N.Y.S.
