GASLAND

CAN YOU LIGHT YOUR WATER ON FIRE?

"Mesmerizing...warm-hearted...darkly humorous."
—Washington Post

You're invited to The Sustainability Institute's Sustainable Film Series. This screening's partnering organization is Huntington Breast Cancer Action Coalition

If your organization would like to co-sponsor an upcoming presentation, call 516.678.5000 ext. 7564

Part verité road trip, part exposé, part mystery and part showdown, GASLAND follows director Josh Fox on a 24-state investigation of the environmental effects of hydraulic fracturing. What he uncovers is mind-boggling: tap water so contaminated it can be set on fire right out of the tap; chronically ill residents with similar symptoms in drilling areas across the country; and huge pools of toxic waste that kill livestock and vegetation.
